Product Summary

BioLite Net is one of the world's smallest IP fingerprint terminals
with Access Control and Time & Attendance features.

Product Description

BioLite Net is a compact IP fingerprint terminal that has been designed to fit on a mullion mount. BioLite Net's IP65 rating for protection against dust and water makes it suitable for both indoor & outdoor use and its simple user interface allows for quick and easy access to the device.
It is ideal for applications that require basic user interaction in a variety of installation environments.
